

RUDDER ANGLE INDICATORS

RECEIVER

TYPE: I-M

MODEL: I-M-2S

(Rudder angle indicator)

SCM
SISTEMAS

FEATURES

- Quiet, steady and resistant rudder angle indicator.
- Material: ABS plastic and methyl methacrylate.
- Communication protocol:
RS-422 (2 wires)
- Includes 2 tapered scales:
Port: from 0° to 45° (red colour).
Starboard: from 0° to 45° (green colour).
- Indication made by stepper motors.
- Admits interface to communicate with the VDR.

TECHNICAL SPECIFICATIONS

Power supply	24 VDC
Power consumption	20 W
Operating temperature	-20°C to +50°C
Resolution	1°
Accuracy	0,5°
Assembly	Bulkhead
Weight	Approx 2 kg
IP-rating	55
